

Pavo DailyPlus

For a satisfied horse

Wild horses graze for approximately 16 hours a day, making around 40,000 chewing motions. Stabled, domesticated horses chew much less. Pavo DailyPlus is a balanced roughage (with an energy value equal to good hay). It can be fed alone or mixed with concentrates to stimulate chewing and increase saliva production. Plenty of chewing combats boredom and an increased saliva production is good for a healthy digestive function.

Pavo DailyPlus is the formula for a contented horse.

Available in 15kg bags.

Important characteristics

- Stimulates chewing – by up to 3 times
- Extends the duration of eating – by up to 3 times
- Combats boredom
- Ideal for combating feed envy
- Promotes healthy digestion

Application

Ideal for all horses and ponies of all breeds, in all disciplines.

Feeding advice

- Mix 300 to 500 gram to each concentrate feed meal and give it your horse.
- For a good intake, moisten Pavo DailyPlus and feed concentrates with a little water
- Maximum of 1.5kg per 100kg bodyweight per day

Feed scoop content

- One full Pavo feed scoop Pavo DailyPlus contains approximately 0.2 kg.

Product Specifications

Contains

Lucerne (alfalfa)
Oat plant
Barley Straw
Wheat feed
Cane Molasses
Hay
Barley
Soybean oil
Magnesium Oxide

Guaranteed analysis

Energy (EWpa) 0,54 EWpa
Energy (DE) 7,8 MJ/kg
Energy (ME) 6,6 MJ/kg
Dig. crude protein 6,8 %
Crude protein 6,8 %
Crude fat 8,9 %
Crude fibre 26 %
Crude ash 9 %
Sugar 2,4 %
Starch 3,2 %

Vitamin levels (per kg)

Levels comparable to normal Roughage (hay , silage for dry) no added vitamins

Storage advise

Store in a cool, dry and dark place. Reclose after usage

Package

Bags 90 ltr

Shelf life

Shelf life 12 mth

Minerals and trace elements (per kg)

Calcium 0,6 %
Phosphorus 0,3 %
Sodium 0,06 %
Potassium 0,3 %
Magnesium 0,2 %
