

Pavo SportsFit

The sport muesli for all disciplines

A non-heating performance muesli for horses requiring strength, power and endurance without becoming over excitable. The ideal combination of energy from oil and starch help support the energy demands of performance horses at all levels. The readily digestible starch from puffed cereal grains provides an easily absorbed supply of energy. Together with the highly digestible cereals, an oil content of 9% provides an energy value of over 14MJ per kg muesli, delivering slow release energy and promoting excellent levels of power and stamina.

The blend of soya and linseed oil delivers an essential balance of Omega 3 and 6 fatty acids that are an ideal fuel for heavy exercise and endurance. Research has shown that Omega 3 & 6 fatty acids contribute to a healthy shiny coat and Omega 3 help suppress inflammatory reactions. SportsFit also contains high levels of the key antioxidants vitamin E and selenium to help protect against free radical damage during strenuous exercise.

Linseed and soya flakes contain high levels of the essential amino acids lysine, methionine and threonine, which are indispensable for building and maintaining muscle tone. The fibre from linseed supports the intestines and is therefore suitable for horses with digestive disturbances.

Available in 3kg, 15kg bags and Big Box.

Pavo SportsFit is also available in Big Box: the ideal bulk package when you feed 5 to 10 horses the same type of concentrated feed. The Pavo Big Box is more advantageous than bagged feed.

Important characteristics

- Energy-rich performance muesli with extra omega 3 & 6 fatty acids.
- Extra magnesium to support muscular function.
- High levels of antioxidants vitamin E & selenium.
- Added linseed for extra energy and a shiny coat
- Maximum puffed cereal content to optimise digestion

Application

- Ideal for all sport horses in all disciplines
- Also very suitable for endurance performance: dressage, eventing, driving and endurance
- For horses that must deliver intensive performance without overheating

Feeding advice

- Average advice in medium-heavy work: 450 gram per 100kg bodyweight per day.
- Maximum advice in heavy work: 600 gram per 100kg bodyweight per day
- The required amount depends on grazing and work

Feed scoop content

- 1 full Pavo feed scoop Pavo Sportsfit contains approximately 0.7kg.

Pavo SportsFit

The sport muesli for all disciplines

Product Specifications

Contains

Oat
Barley
Lucerne (alfalfa)
Wheat feed
Spelt
Puffed Maize
Soya (bean), extracted, toasted
Cane Molasses
Soybean oil
Toasted soybean flakes
Linseedoil
Chicory pulp
Wheat bran
Magnesium Oxide
Calcium carbonate
Sodium chloride
Maize germ oil
Maize / Corn
Peas Flakes
Linseed
Wheat
Sun flower seed, extracted
Barley
Brewer's yeast
CellProtect

Package

Bags 15 kg
Big Box 450 kg

Shelf life

Bags 6 mth
Big Box 3 mth

Feeding advice kg/day

	200 kg	400 kg	600 kg
	kg / day	kg / day	kg / day
Medium work	0,9 kg	1,8 kg	2,7 kg
Heavy work	1,2 kg	2,4 kg	3,6 kg

Guaranteed analysis

Energy (DE) 11,4 MJ/kg
Energy (EWpa) 0,91 EWpa
Energy (ME) 9,7 MJ/kg
Dig. crude protein 90 gr/kg
Crude protein 13,7 %
Crude fat 7,1 %
Crude fibre 13,2 %
Crude ash 8,2 %
Sugar 4,8 %
